

Sarthak Kadam

Full Stack Developer

Kalyan, Maharashtra, India | +91 77180 61474 | sarthakkadam147@gmail.com

GitHub: github.com/venomhare | LinkedIn: linkedin.com/in/sarthak00dev | Twitter: x.com/KadamSarthak

Professional Summary

Full Stack Developer specializing in TypeScript, React, Node.js, and AI-powered applications. Built production-ready SaaS products, payment systems, and Gmail-integrated workflows. Open-source contributor with experience shipping features to real-world developer tools.

Technical Skills

Frontend: React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: PostgreSQL, Supabase, MongoDB, MySQL

DevOps & Tools: Docker, Git, GitHub Actions, Vercel, CI/CD, Nginx

Other Skills: REST APIs, Prisma/Drizzle ORM, Zod, TDD, JSON Schema

Open-Source Contributions

Open Source Contributor – VoltAgent ([GitHub](#))

Remote | 2025 – Present

- Integrated **Claude** model support using **Anthropic AI SDK (TypeScript)** ([Feature #10](#))
- Added **multi-modal** input support (images/files) for LLMs ([PR #110](#))
- Fixed **JSON Schema** → **Zod schema** parsing bug for better validation ([Issue #87](#))
- Contributed to code review and team discussions to ensure code quality and feature alignment.

Projects

DraftMyMail AI | draftmymail.com | [Backend Repo](#) | Frontend (Private)

Tech Stack: React (Vite), Bun JS, Hono, PostgreSQL, Supabase, Gemini API

- Built an AI-powered SaaS for generating professional HTML emails with strong first-pass output and iterative AI editing.
- Integrated Google OAuth and Gmail Draft API with progressive consent for seamless email drafting workflows.
- Reduced AI generation costs through token-optimized prompting and task-based model routing.

PowerPay Wallet | powerpay.vercel.app | [GitHub Repo](#)

Tech Stack: Next.js, Express.js, Node.js, Postgres, JWT

- Developed a full-stack digital payments application featuring a secure, server-side backend with Express.js.
- Engineered a robust RESTful API for user authentication, real-time balance lookup, and secure fund transfers
- Built a dynamic and responsive UI using Next.js for a seamless client-side experience.

LGI Modz Showcase | lgimodz.store

Tech Stack: Next.js, TypeScript, Vercel, PayPal

- Developed a responsive product showcase website with integrated customer support chat, image uploads, automated transactional emails, and PayPal checkout workflows.

Education

Bachelor of Science in Information Technology

KM Agrawal College, Kalyan

Mar 2024 – May 2026

Certifications & Courses

Cohort 2.0 – Full Stack & DevOps

100xDevs by Harkirat Singh | Oct 2024 – Jan 2025 | [Certificate](#)

Hands-on training in MERN stack, system design, and DevOps. Covered TypeScript, Next.js, Docker, Kubernetes, CI/CD, Redis and Kafka.
